3. Release 3.2.26 – 15/4/2020

This release includes various bug fixes and enhancements/changes.

Below is a list of major changes:

Version	Date	Description
---------	------	-------------

3.2.06	27-02-2020	New More4apps brand applied. This will have no functional impact on users and is purely a cosmetic update. Existing templates with previous styles will work with this version, please note however the colors may change in these sheets when invoking Wizard functionality.
3.2.19	30-03-2020	Customer Number is now only mandatory if Customer Name exists.

2. Release 3.1.45.27 – 17/11/2019

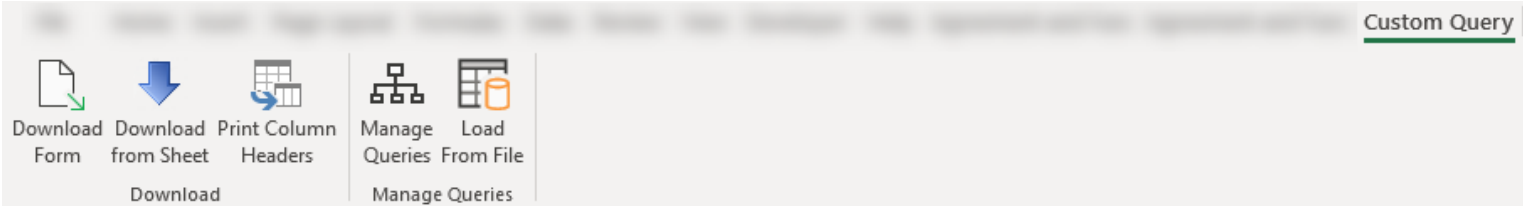

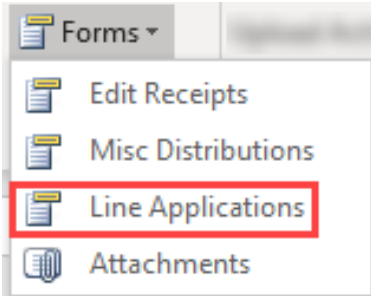

This release includes various bug fixes and enhancements/changes.

Whilst we at More4Apps have tried to maintain the same look and user interaction, some functionality has been modified. You **cannot** use your previous template/worksheets in this new version as the layout structure of the Wizard has changed with the addition of columns, a new section, and data layout changes.

A new package installation is required with this version of the Wizard.

Below is a list of major changes:

1. Release 3.0.42 – 02/03/2018

This release includes various bug fixes and enhancements/changes.

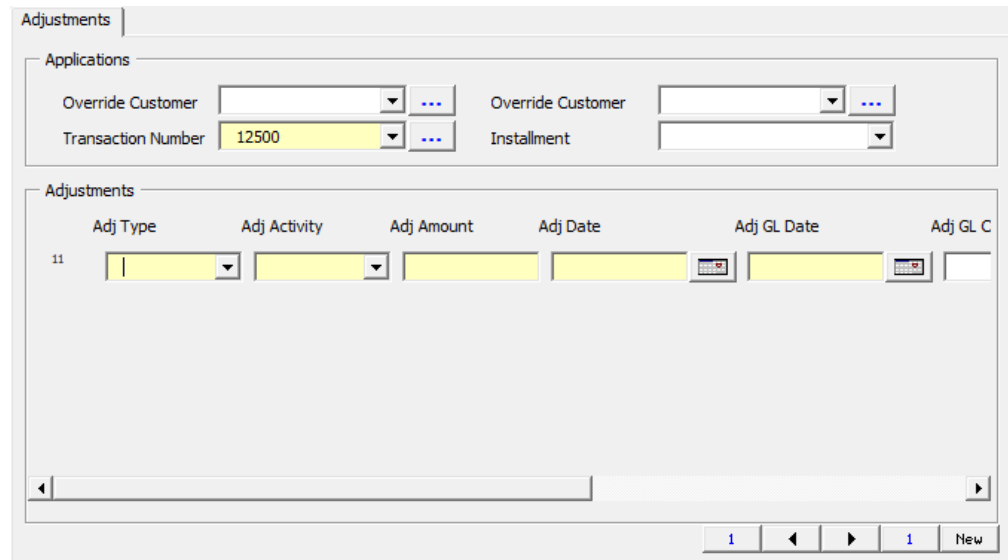

Whilst we at More4Apps have tried to maintain the same look and user interaction, some functionality has been modified. You **cannot** use your previous template/worksheets in this new version as the layout structure of the Wizard has changed with the addition of Miscellaneous Distributions functionality which includes a new section and new status column. There are additional columns to various modes of the AR Receipt Wizard.

Below is a list of major changes:

Version	Date	Description
3.0.42	02-03-2018	Adjustment mode fields

The following fields are now mandatory:

- Adj Type
- Adj Activity
- Adj Amount
- Adj Date
- Adj GL Date

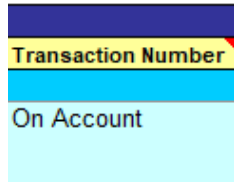

3.0.36 26-02-2018 Added **Amount** to the default Unapply sheet.

Upload Results								
Upload Status	Appl Status	Upload Messages	Receipt ID	Receipt Number	Customer Name	Customer Number	Receipt Date	Amount
Default Values								

3.0.33 22-02-2018 **New Functionality**

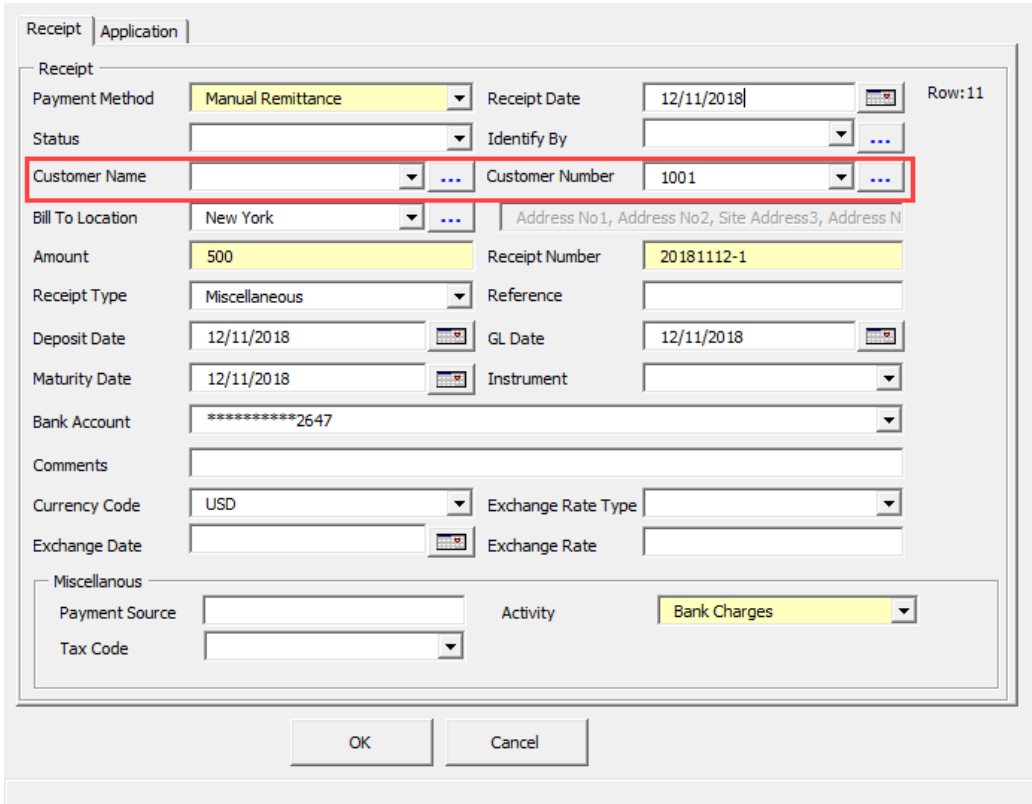

Added 'On Account' Status functionality. Enter 'On Account' to the Transaction Number cell and it will automatically apply any remaining Receipt amount to On Account. This means that the receipt is applied to all outstanding invoices and is not specifically applied to an invoice.

3.0.30 14-02-2018

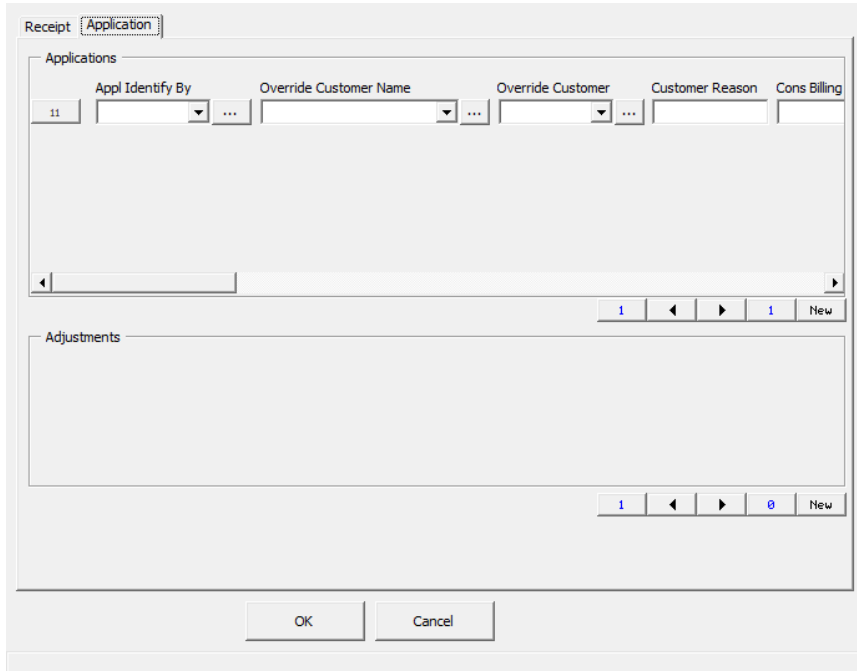

Edit Receipts Form Change

Change of placement for Customer Name and Customer Number fields under the Receipt tab:

The screenshot shows a software interface for editing a receipt. The 'Receipt' tab is active. The 'Customer Name' and 'Customer Number' fields are highlighted with a red rectangle. New Functionality Miscellaneous Distributions added for R12

For this functionality to work, Oracle EBS patch 24375569 is required.

New Form **Misc Distributions** added

Misc Distributions form

A screenshot of the 'Misc Distributions' form. The form title is 'Misc Distributions | Misc Dist DFF'. Below the title is a section titled 'Distribution Criteria' containing four input fields: 'Misc Amount', 'Misc Percent', 'Misc Account', and 'Misc Comments'. The 'Misc Account' field is a dropdown menu with a yellow background and a blue ellipsis button to its right. At the bottom of the form are 'OK' and 'Cancel' buttons.

New section **Miscellaneous Distributions** added to the wizard

1.1. New Columns

In this release of the AR Receipt Wizard, there has been the addition of new columns and section:

- Addition of column **Amount** to the default Unapply sheet.
- Addition of a new section **Miscellaneous Distributions** added to the Wizard.
- Addition of new status column **Misc Dist Status** to the Upload Results section.

Valid uses of these columns are as follows:

Amount column clearly states the amount to be unapplied.

Upload Results								
Upload Status	Appl Status	Upload Messages	Receipt ID	Receipt Number	Customer Name	Customer Number	Amount	Receipt Date
Accepted	Accepted		216225	559990	American Telepho	1001	500	26/02/2018
			216225	559990	American Telepho	1001	500	26/02/2018

Miscellaneous Distributions details can be added by either directly entering values to the sheet or via the Miscellaneous Distributions form. Invalid distribution lines will populate the **Misc Dist Messages** column with an error message and highlight the incorrect value with a red cell color.

Miscellaneous Distributions				
Misc Dist Messages	Misc Amount	Misc Percent	Misc Account	Misc Comments
The Misc Account value is invalid		100	01-402-4150-00	

New status column **Misc Dist Status** in the Upload Results section indicates the outcome of the miscellaneous distribution upload.
