Release 3.4.71 – 11/05/2021

This version includes incremental fixes, and/or additions to the Item Cost Wizard as part of its development and release process.

There are no functional changes in this version.

Release 3.4.67 – 22/05/2020

1.1. New More4apps Brand Applied

Version: 3.4.60

Date: 15/04/2020

This will have no functional impact on users and is purely a cosmetic update.

Existing templates with previous styles will work with this version, please note however the colors may change in these sheets when invoking Wizard functionality.

Release 3.4.36 – 22/02/2018

The following includes details of the incremental fixes, functionality changes and or additions to Item Cost Wizard as a part of its development and release process.

Version	Date	Description
3.4.36	22-Feb-2018	Various Bug Fixes and updates. This release has no functional impacts to users and will not inhibit any issues when migrating from the previous release version. Only visual change to the Wizard is the Default Row (Row 10) is now frozen so it will remain in view when scrolling down the worksheets.
