## Release 2.5.17 – 28-07/2021

Whilst we at More4apps have tried to maintain the same look and user interaction, some functionality has been modified due to bug fixes and enhancements to the code. You can still use your current template worksheets in the new version provided they were created in version 2.5.00.

There are no functional changes in this version.

## Release 2.5.05 – 09/07/2020

### 1.1. New More4apps Branding – New Logo and Colors

Version: 2.5.00

Date: 08/06/2020

New More4apps brand applied. This will have no functional impact and is purely a cosmetic update.

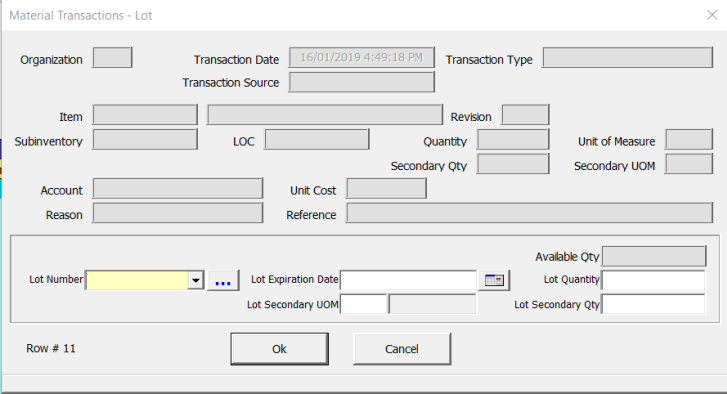

Existing templates with previous styles will work with this version, please note however the colors may change in these sheets when invoking Wizard functionality.
